FARO is a multidisciplinary lighting studio that works with light as a language, one that speaks to space, memory, and emotion. We design experiences that awaken presence, stir feeling, and create meaning. Our work moves across art, architecture, and atmosphere, where light becomes a tool for transformation, not just illumination. Rooted in conceptual inquiry and crafted through collaboration, we create site-responsive interventions that connect people to place, and to themselves.

FARO is a multidisciplinary lighting studio that works with light as a language, one that speaks to space, memory, and emotion. We design experiences that awaken presence, stir feeling, and create meaning. Our work moves across art, architecture, and atmosphere, where light becomes a tool for transformation, not just illumination. Rooted in conceptual inquiry and crafted through collaboration, we create site-responsive interventions that connect people to place, and to themselves.

FARO WORK ABOUT HUESPED CONTACT

FARO is a multidisciplinary lighting studio that works with light as a language, one that speaks to space, memory, and emotion. We design experiences that awaken presence, stir feeling, and create meaning. Our work moves across art, architecture, and atmosphere, where light becomes a tool for transformation, not just illumination. Rooted in conceptual inquiry and crafted through collaboration, we create site-responsive interventions that connect people to place, and to themselves. FARO WORK ABOUT HUESPED CONTACT

HUESPED > SOBRE HUESPED, GALLERIA, MERCH, PRENSA, EQUIPO

HUESPED es una propuesta experiencial que pone de manifiesto la función narrativa de la luz. A través de 8 instalaciones lumínicas, HUÉSPED reflexiona acerca de la memoria, la impermanencia y nuestra relación con lo doméstico. Se trata de una obra site specific donde sus visitantes son un elemento clave para dar vida a cada una de las piezas. Ubicado en la vibrante colonia Roma, el Edificio Francia es un símbolo arquitectónico de la CDMX. Desde su construcción en 1927, este espacio ha sido testigo de un sinfín de historias, así como un referente de propuestas innovadoras tanto en su estructura como en el modelo habitacional que propuso, siendo una de las primeras residencias multifamiliares en la zona. Esto último le ha dado al edificio un valor social y cultural distintivo.
